The following Address of the Town and Borough of Newport was presented to his Majesty by the Honourable Lieutenant-General Web, Governour of the Isle of Wight, and William Stevens, Esq; their Representatives in Parliament.

To the King's most Excellent Majesty.

The humble Address of the Mayor, Aldermen, and chief Burgesses of the Town and Borough of Newport in the Isle of Wight.

Dread Soveraign,

WE your Majesty's most Dutiful and Loyal Subjects the Mayor, Aldermen, and chief Burgesses of your Majesty's Town and Borough of Newport in the Isle of Wight, humbly crave Leave among the rest of our fellow Subjects, to congratulate your Majesty's Happy and Peaceable Accession to the Crown of these Kingdoms, which alone can support us under, and supply the Loss of our late most excellent Queen. We sincerely and heartily acknowledge your Majesty's Just and Undoubted Right to Rule over us, and promise our selves, that as your Majesty's great Wisdom allowed of no Distinctions in the Government of your own Native Dominions, so we shall see an happy End of those Party-Strifes which have so long divided this our Land. We heartily pray for your Majesty's long Life, and for a continual Succession of your Royal Family to Govern us; for the support of which our Lives and Fortunes are intirely devoted. Dated under our Hands and Common Seal the 11th Day of October 1714.

From the Leiden Gazette, dated Oct. 16.

Paris, Oct. 8. Cardinal de Rohan has received a Brief from the Pope, dated August 21, wherein his Holiness makes great Complaints because his Dogmatical Constitution has not been so readily and unanimously received as it ought to be; and there is much talk that there will be a National Council held in France to regulate that Affair. Cardinal Giudice, in Quality of Grand Inquisitor of Spain, gave out a Decree dated at Marli July 30, whereby he condemns these Books, *Joannis Barclaii de Potestate Papæ pro Guillelmo Parente vindiciæ adversus Robertistæ Rom. Eccl. Cardinalis Bellarmini de Potestate summi Pontificis in Rebus Temporalibus*, Printed in Quarto at Paris in 1612. *Traité de l'Autorité des Rois en ce qui regarde l'Administration de l'Eglise*, Printed in Octavo at Amsterdam in 1700, by the Author M. Talon, and a Manuscript Paper which begins *le Fiscal General*, and ends *Madrid*, December 10. 1713, with an Addition which begins *se pondero*. All which he forbids to be kept, read, or sold, upon the Penalty of the greater Excommunication, and 200 Ducats forfeiture to the holy Office. This Proceeding has equally surprized the Courts of France and Spain. And the latter having received Advice of it, immediately assembled the Council, where it was resolved that his Majesty should recall that Cardinal: Accordingly he wrote to him to return immediately to Madrid upon Affairs more Important than those his Majesty sent him upon to France. The Cardinal took his Audience of Leave, and departed three Days after he received that Letter: And the Duke de Popoli is since gone to meet him upon the Frontiers, to command him from the King to retract that Decree, or otherwise to lay down the Office of Grand Inquisitor of Spain.

From the Amst. Gazette, dated Oct. 23.

Paris, Oct. 15. We hear from Madrid by Letters of the 1st Instant, that the Marquis de Lede Governour of Terragona, has taken Possession of the Government of Barcelona, and is succeeded in the former by Don Joseph de Armendaris Lieutenant-General. The Redemption of the bells of Barcelona has been fixed at 40000 Crowns, which is paid by the Inhabitants, and will be distributed among the Officers of the Artillery. The Cannon which were formerly left there by the Marshal de Thesse will be brought back to France. Four Regiments of Foot are marching hence for Catalonia, who will be followed by a greater Number; and the greatest part of the French Horse that have served in that Country will come back to take Winter Quarters in this Kingdom. The Court continues to take daily new Diversions at Fontainbleau, at all which the Electoral Prince of Saxony is present. Last Week the King gave that Prince a Magnificent Entertainment upon the Canal, wherein the King rode in his Calash, and was followed by a numerous Train of Coaches with six Horses. It is still said the Court will return to Versailles the 24th. The Dauphin has been all this while at Versailles, where he enjoys a perfect Health. The Queen Dowager of Poland, who remains at Blois, has quitted her Title of Queen and takes that of one of her Estates. An Order of the Council of State was published the 9th Instant, to regulate the Prices of the Species of Gold and Silver in proportion to the Diminution upon each, ordered for the 15th of October, and the 1st of December 1714.

From the Amst. Gaz. and Hag. Cour. dated Oct. 24.

Hague, Oct. 23. The States made a Solemn Deputation the 18th. consisting of the Pensionary Heinsius, the Greffier Fagel, and five other Lords, to Compliment in their Name the Princess of Wales, who accordingly waited upon her Royal Highness in the Forenoon. In the Afternoon that Princess made a Tour in the Voorhout, where there was a great Concourse of Coaches and People. She received while she was there the Visits of the foreign Ministers, and many other Lords and Ladies, who could not enough applaud the agreeable Reception they found, and the admirable Presence of Mind her Royal Highness express'd. The two Princesses her Daughters were not less the Subject of Admiration for the excellent Behaviour they shewed, much above what their Age could promise, one being but 3 and a half and the other but 5 Years old. We hear from Antwerp, that Count Coningseck returned thither from Brussels the 19th, and the State's Deputies came back from Zealand the Day before; and that this Morning the seventh Conference upon the Barrier has been held.

Hague, Oct. 22. 'By the favourable Wind 'since the Embarkment of Madam the Princess of 'Wales, it is not doubted that her Royal Highness, with the Princesses her Daughters, are at 'present safely arrived in England. The whole 'Conversation of this Place turns upon the 'Charms, Sweetness, and good Manner of that excellent Princess, whose generous Treatment of every body that had the Honour to approach her 'was such that none came from her without being obliged by some particular Expression of her 'Favour. The Ambassador of France and the 'Duke d'Ossuna had particular Audiences in her 'Closet, but she received the Compliments of 'the other foreign Ministers in her Anti-Chamber, 'with no other Ceremony than being presented 'by her Great Chamberlain the Sieur Bursch.

'In the six Conferences which have been held 'at Antwerp, there has been nothing concluded. 'We are assured Count Coningseck has not Instructions full enough, and 'tis to desire more ample that he has sent an Express to Vienna, and 'the Conferences will be discontinued till his Arrival. On the other hand, we flatter our selves, 'that when the Plenipotentiary of his Britannick Majesty arrives at Antwerp, and enters into that Negociation by virtue of the 'Barrier Treaty between England and this State, 'the Imperial Court will send Instructions to 'Count Coningseck which may explain and bring 'nearer together the Demands on each Side; but 'time must pass before the contracting High 'Powers can come to an entire Agreement.

'The States are much irritated at the Proceedings of the Elector Palatine, for having by Force 'seized on a Castle named Kessenich near Maesyck, 'which belongs to Madam de Wael whose Husband was a Major General in the Service of 'the States, upon Pretence that it is a Fief of

of the Country of Juliers, whereas the States maintain that it belongs to the Dutchy of Guelders, and in Consequence thereof have for some time past forbid that Lady to pay any feudal Duties to the Elector Palatine. Orders therefore are given to the Governour of Maestricht to detach Troops towards that Castle, and drive the Palatines out of it. P. S. We just now received Advice that the Palatine Troops have abandoned the Castle of Kessenich.

Letters from Hamburg advise, that the Swedes flatter themselves they shall soon see their King in Germany at the Head of 30000 Men, and that he will open a new Scene, which may embarrass his Enemies.
